

Client-side Solid

Vincent Tunru (@VincentTunru)
10 October 2019

What library to use?

- rdflib?
- Idflex?
- Something else?

rdflib

- Does it all
- Battle-tested
- By TimBL

Idflex

- Easily combine data
- Nifty shortcuts
- Included with the Generator

Tripledoc

- Narrow focus
- Well-documented
- Aimed at Linked Data beginners

Let's give them a try!

- Three common operations:
- Read name and nickname
- Write name and nickname
- Get list of friends, read their names

My profile document

Subject	Predicate	Object
#me	foaf:name	"Vincent"
#me	foaf:nick	"Disco"
