
Announcement

Seven companies have started a cooperation,

To serve organizations better

*Bart van Leeuwen - Lieke Verhelst - Rob van Dort - Jan Voskuil
John Walker - Richard Nagelmaeker - Pieter van Everdingen*

Who is part of this new cooperation?

What is their view on data?

- has a clear meaning within every business context
- can be easily found
- is easy to combine with other data
- crosses data silo's more easily
- helps create better, richer experiences for end users

Please Welcome

Services

Covering the full life cycle of Smart Data activities:

- Idea generation, requirements analysis
- Un-conferences, hackatons, workshops
- Proof of concepts and pilots (in test beds)
- Business case development (costs benefits analysis)
- Idea realization in projects (development, testing, deployment)
- Training, doing proper handovers, delivering good documentation
- Maintenance and administration (own/cloud environments)
